a. Academic Affairs – Dr. Cindy Meyer
   i. CIT Program – Catalog Description Change and Course number Prefix change for CSCI 2023 Visual Basic for Windows to CSCI 2063 Programming 1
   ii. General Business Program – To make the prerequisite for Business Statistics an either/or option to include College Algebra or Mathematical Reasoning. Currently College Algebra is the prerequisite.
   iii. Change the prerequisite from BLAW 2013 Legal Environment of Business from ENGL 1123 (COMP 2) to ENGL 1113 (COMP 1).
   iv. Radiologic Technology Program – Catalog Course Description Change for RADT 2042 Imaging Modalities (removing the phrase – and special procedures)

   vi. CTE Program – Change the Prefixes for the four (4) listed courses from HCIT (Medical Coding) to HSCI (Health Science) - Reason for requested change/addition: The courses below have the prefix for the medical coding program but the medical terminology course is a general health science prerequisite and the other courses are part of the health science technology program for the secondary technical center. The HCIT prefix affects credentialing of the
faculty and could cause an issue as the college pursues medical coding accreditation.

1. HCIT 1003 Medical Terminology to HSCI 1003 Medical Terminology
2. HCIT 1021 CPR and First Aid to HSCI 1021 CPR and First Aid
3. HCIT 1001 Computer Basics to HSCI 1001 Computer Basics
4. HCIT 1011 Ethics and Professionalism to HSCI 1011 Ethics and Professionalism

vii. Math Dept. – Add two (2) new courses/labs that replace two courses that will no longer be offered and then changing two existing course syllabuses to make these new courses co-requisites - Reason: This is expected to allow students to complete requirements in math courses better, accelerate completion in course/degree plan, and to come in accordance with state advising and math pathways.

   2. Add New Math Course MATH 0071 Tech Math ALP lab (to replace Elementary Algebra)
