The Health and Wellness VISTA will help expand the fitness center's Disease Management Initiatives and create sustainable health and wellness services for the low income population of Union County, Arkansas by working in the following ways: help expand the physician referral, update and improve Assistance Program, and create a sustainable Exercise is Medicine Program. The Health and Wellness VISTA will work with the Fitness Director and Member Services Manager to create pre and post surveys to measure success and help improve services. He/she will develop and maintain a tracking system to collect data as a way to measure programs success and perform administrative duties that include creating and distributing program materials to area physicians, as well as the low income community. This includes creating monthly reports reflecting the number of unduplicated participants served, number of those whose knowledge has increased, number of classes attended, usage of the facility, and measuring symptoms throughout the respective program.
