

This is a SouthArk Master Syllabus. The course syllabus distributed by the instructor may include additional requirements, must be followed by the student in the given term, and is considered to supersede the Master Syllabus.

Course Number
CSCI 1425

Course Title
LAN INSTALLATION AND REPAIR

Course Description

Prerequisites: CSCI 1405, CSCI 1102. A continuation of CSCI 1405 Introduction to Networking. Students learn the functionality of network media and signaling used on each different type of media, functionality of Protocols, OSI protocol Model, and the TCP/IP protocol stack. Through hands-on activities and labs, students learn to analyze network architectures, upgrade, and design, install LAN Networks, and troubleshoot hardware and software problems with the LAN. This course assists students in preparing for the CompTIA N+ certification examination.

College Mission

South Arkansas Community College promotes excellence in learning, teaching, and service; provides lifelong educational opportunities; and serves as a cultural, intellectual, and economic resource for the community.

College Wide Student Learner Outcomes

Critical Thinking Responsibility Communication

ACTS Course **Program Course**

ACTS Outcomes

Program Outcomes

Learner Outcomes for all CIS Majors*

- PO1 Identify and resolve technical issues using appropriate technologies or analytical tools.
- PO2 Demonstrate communications skills in a business environment.
- PO3 Skills Demonstrate proficiency as defined by the CIT department, in recognized industry hardware/software.
- PO4 Identify situations that present ethical dilemma inherent in information technology.

Network System Administration Specialist Option*

- TNO1 Network Administration Track - Demonstrate basic network troubleshooting techniques.
- TNO2 Describe and diagram the layers, protocols and the components of the OSI model.
- TNO3 Network Administration Track –Describe and diagram basic components of an enterprise network.
- TNO4 Network Administration Track - Configure network devices.

*Learning outcomes are based on U.S. Department of Labor IT 2012 Competency Model and Association of Computing Machinery Committee for Computing Education in Community Colleges.

Course Learner Outcomes

CLO #	Course Learner Outcomes (CLO)	Unit Outcomes/ Competencies	ACTS Outcomes	Program Outcomes	Critical Thinking	Communication	Responsibility	Assessment
CLO 1	Contrast physical and logical network topologies.	2		PO 1				Embedded question Unit 2 Exam
CLO 2	Analyze TCP/IP and other common protocol stacks.	3		TN 02				Embedded question Unit 3 Exam

CLO 3	Construct a LAN.	4		TN 04	CT 2			Team project results
CLO 4	Identify performance issues related to network traffic.	5		TN 01				Embedded question Unit 4 Exam
CLO 5	Describe data encryption, firewalls, and other security measures.	6		PO 4				Embedded Question Unit 5 Exam

Unit Outcomes/ Competencies/ Objectives

Unit 1 Network Transmissions

- Evaluate types of cables.
- Characterize analog and digital signaling.
- Explore different transmission modes, including emerging networking media.

Unit 2 Types of Networks

- Contrast physical and logical network topologies.
- Explain network architecture.
- Characterize Token Ring and Ethernet networks.

Unit 3 Network Protocols

- Identify the function(s) of a protocol.
- Contrast the OSI and TCP/IP models.
- Analyze TCP/IP and other common protocol stacks.
- Contrast local area networks and wide area networks.

Unit 4 Building your network

- Differentiate network types.
- Construct a LAN.
- Evaluate practical considerations of network design
- Evaluate the criteria for selecting hardware for a network.
- Evaluate the criteria for selecting operating systems for a network.
- Characterize server hardware and software.
- Explore scalability and planning for change.

Unit 5 Managing the Network

- Explain the basic purposes of network management and monitoring.
- Identify performance issues related to network traffic.
- Explain fault tolerance and redundancy.

Unit 6 Security

- Analyze computer viruses and other security threats.
- Explore the functions of passwords and user rights
- Explore data encryption, firewalls, and other security measures.

Assessment Description(s)

Embedded test questions and Team project results for LAN construction

Materials and Technological Requirements

Handouts provided by instructor (no text), notebook for handouts, pencil paper, calculator, and internet access after class hours. Networking tools, equipment and cables will be provided in class.

Class Attendance Policy

Students are expected to attend all classes in which they are enrolled. If a student is absent from a class session, it is the student's responsibility to make arrangements to complete or make up any work missed. No make-up work for missed classes will be allowed without the approval of the instructor. Students who enroll late must assume all responsibility for work missed. Classes not attended as a result of late enrollment may be counted toward excessive absences. Students not attending the entire class period may be counted absent for that period. An instructor may drop students with a grade of "WE" if students have been absent for an excessive number of days. Warning letters will be sent to the students advising them of the consequences of nonattendance and urging them to contact their instructors immediately. Excessive absences are defined as follows:

Regular Semester

Courses which meet once a week	2 absences
Courses that meet twice per week	3 absences
Courses that meet four times per week	5 absences

Summer Session

Courses that meet four times per week in a five week session	3 absences
Courses which meet two evenings per week in a 10 week session	3 absences

Students enrolled in special programs or individualized instruction should contact their program director/instructor regarding specific attendance requirements for the program/course. Some of the selective-admission, health-science programs have specific criteria regarding attendance. Students are encouraged to refer to program policies in these matters.

Jury Duty/Military/Official School Function

Scheduled absences are those that occur due to college-related activities or as a result of summons to jury duty or military duty. Classes missed as a result of scheduled absences will not be counted as excessive absences if the instructor is notified and provided documentation prior to the absence(s). Make-up work for scheduled absences will be at the discretion of the instructor.

In all instances, documentation must be provided to the instructor within 24 hours of receipt. Documentation should come from an appropriate party on letterhead or other official stationery with a signature and contact information. Documentation should list the corresponding dates of the leave.

Medical leave

For medical-related absences, documentation must include written notice from the treating medical professional documenting time needed off related to medical reasons and time student may resume classes. The medical reason does not need to be listed on the documentation; the documentation must include only that there is a medical reason, the amount of time the student needs to be absent, and the time the student should be able to return to classes. Students who elect to work at home while on excused leave must meet with their instructors to make arrangements to do so. Working on coursework while on medical leave is not a requirement but can be requested by students. If students request that they be allowed to work at home while on an excused leave, the instructor will make every reasonable effort to ensure that the student is able to do so.

For students who have a medical condition necessitating time off or accommodation:

- 1) They may work at home on assignments if they choose to if on medical leave approved by a medical professional
- 2) Receive appropriate accommodations related to coursework (i.e., excused from labs with potentially harmful chemicals, have a larger desk, etc.)
- 3) Resume their studies where they left off once they return to classes
- 4) Be allowed to make up any missed work related to medical leave
- 5) Receive incompletes on their transcripts until coursework is completed, according to the incomplete grade contract.
- 6) Be given a reasonable time frame in which to complete missed coursework

Academic Honesty Policy

Students enrolled at South Arkansas Community College are expected at all times to uphold standards of integrity. Students are expected to perform honestly and to work in every way possible to eliminate academic dishonesty. Academic dishonesty includes cheating and plagiarism, which are defined as follows:

- Cheating is an attempt to deceive the instructor in his/her effort to evaluate fairly an academic exercise. Cheating includes copying another student's homework, class work, or required project (in whole or in part) and/or presenting another's work as the student's own. Cheating also includes giving, receiving, offering, and/or soliciting information on a quiz, test, or examination.
- Plagiarism is the copying of any published work such as books, magazines, audiovisual programs, electronic media, and films or copying the theme or manuscript of another student. It is plagiarism when one uses direct quotations without proper credit or when one uses the ideas of another without giving proper credit. When three or more consecutive words are borrowed, the borrowing should be recognized by the use of quotation marks and proper parenthetical and bibliographic notations.

If, upon investigation, the instructor determines that the student is guilty of cheating or plagiarism, the following penalties will apply:

- The student will receive a penalty of no less than a zero on the work in question.
- The instructor will submit a Student Academic Misconduct Form, written report of the incident, to the appropriate dean.
- The dean will submit form to Vice President for Learning to determine disciplinary action.
- The Vice President for Learning will determine whether further disciplinary action will be taken.
- All decisions may be appealed for review through the college's academic appeals procedure.

Equal Opportunity-Affirmative Action Statement

South Arkansas Community College does not discriminate on the basis of age, race, color, creed, gender, religion, marital status, veteran's status, national origin, disability, or sexual orientation in making decisions regarding employment, student admission, or other functions, operations, or activities.

Procedures to Accommodate Students with Disabilities:

If you need reasonable accommodations because of a disability, please report this to the Vice President of Student Services with proper documentation. . VPSS Contact: 870.875.7262

The Early Alert System

In an effort to ensure student retention and success, South Arkansas Community College employs an Early Alert System to identify and support at-risk students as soon as possible in a given semester. The intent of Early Alert is to provide this assistance while there is still time to address behaviors or issues that have the potential of preventing students from completing their courses and degree plans. Students referred through the Early Alert System will be required to work on a corrective action plan with their student advising coach and to include attendance accountability and mandatory academic tutoring either in the academic division or in the Testing and Learning Center (TLC).

Once the Student Advising Coach has met with the referred student, and again when the student has met the prescribed corrective actions, the coach will update the Early Alert System so that the instructor is kept informed of the progress in resolving issues.

Behavioral Review Team

At South Arkansas Community College (SouthArk), we are committed to proactive leadership in student wellbeing and campus safety. By focusing on prevention and early intervention with campus situations that involve any person experiencing distress or engaging in harmful or disruptive behaviors, the BRT will serve as the coordinating hub of existing resources to develop intervention and support strategies and offer case management. Students, faculty, staff, and campus guests are encouraged to report any person on campus who is a concern. BRT Contact: 870.875.7262 BRT@southark.edu
