

This is a SouthArk Master Syllabus. The course syllabus distributed by the instructor may include additional requirements, must be followed by the student in the given term, and is considered to supersede the Master Syllabus.

Course Number

RADT1222.30

Course Title

Image Processing Procedures

Course Description

This course is a comprehensive study of image production and processing. Composition and care of films and screens will be included.

College Mission

South Arkansas Community College promotes excellence in learning, teaching, and service; provides lifelong educational opportunities; and serves as a cultural, intellectual, and economic resource for the community.

College Wide Student Learner Outcomes

Critical Thinking

Responsibility

Communication

ACTS Course

Program Course Radiologic Technology

ACTS Outcomes

Program Outcomes

1. Students will be clinically competent.
2. Students will demonstrate professionalism.
3. Students will demonstrate effective communication skills.
4. Students will use critical thinking skills.
5. The program will graduate entry-level technologists.

Course Outcomes

CLO #	Course Outcomes	Unit Outcomes/ Competencies	Program Outcomes	Critical Thinking	Communication	Responsibility	Assessment
CLO 1	Students will adhere to attendance policy.		2			R5	Documented attendance record.
CLO 2	Students will use a large variety of new terminology/ language and will discuss various pieces of equipment which are related to the processing of radiographic images.	1-25	3		C2		Lectures/presentations/Tests
CLO 3	Students will discuss the role and responsibilities of radiographers as they relate to the processing of radiographic images.	4,7,9, 16,18	4	CT1			Lectures/presentations/Tests

Unit Outcomes/ Competencies

Radiographic Film

1. Describe the function of each component of radiographic film.
2. Explain latent image formation.
3. Describe the features of the characteristic curve and explain its purpose.
4. Select the most appropriate image receptor to be used for given clinical situations.

Radiographic Image Receptor Holders

5. Describe various types of image receptor holders.
6. Describe the function of each component of an intensifying screen.

7. Select the most appropriate intensifying screen for given clinical situations
8. Identify procedures that ensure a long screen life devoid of artifacts and distortion.

Radiographic Film Processing

9. Analyze the effects of processing on image quality.
10. Identify key components of an automatic film processor.
11. Demonstrate how various film sizes are fed into the film processor.
12. Analyze the steps of the processing cycle by providing the specific action and duration of time for each step.
13. Identify the purpose of a daily quality control program for processors.
14. Identify types of image artifacts and analyze them to determine the cause.
15. Identify common silver recovery methods.
16. Describe the effects of storage on image quality.
17. Discuss safelight illumination appropriate for specific image receptor systems.
18. Discuss darkroom-related OSHA standards for health and safety.
19. Discuss the possible causes and health implications of “darkroom chemical sensitivity”.

Digital Imaging

20. Define terminology associated with digital imaging system.
21. Describe the various types of digital receptors.
22. Discuss the fundamentals of digital radiography, distinguishing between cassette-based systems and cassette-less systems.
23. Compare the image acquisition and extraction of cassette-based vs. cassette-less systems, including detector mechanism, initial image processing, histogram analysis, automatic rescaling and exposure index determination.
24. Describe the evaluative criteria for digital radiography detectors.
25. Compare dynamic range to latitude of a screen/film receptor system to that of a digital radiography system.

Assessment Description(s)

Students will be tested over lecture and presentation content. Students will also be graded according to their level of effort/ participation during observations and experiments with Radiographic film, image receptor devices, automatic film processor, and various other pieces of image processing equipment.

Materials and Technological Requirements

Principles of Radiographic Imaging: An Art and a Science, Carlton and Adler 5th Edition
 Delmar – Cengage Learning
 ISBN# 978-1-4390-5872-5

Class Attendance Policy

Students are expected to attend all classes in which they are enrolled. If a student is absent from a class session, it is the student’s responsibility to make arrangements to complete or make up any work missed. No make-up work for missed classes will be allowed without the approval of the instructor. Students who enroll late must assume all responsibility for work missed. Classes not attended as a result of late enrollment may be counted toward excessive absences. Students not attending the entire class period may be counted absent for that period. An instructor may drop students with a grade of “WE” if students have been absent for an excessive number of days. Warning letters will be sent to the students advising them of the consequences of nonattendance and urging them to contact their instructors immediately. Excessive absences are defined as follows:

Regular Semester

- | | |
|---------------------------------------------|------------|
| Courses which meet once a week | 2 absences |
| Courses that meet twice per week | 3 absences |
| Courses that meet four times per week | 5 absences |

Summer Session

- | | |
|---------------------------------------------------------------------|------------|
| Courses that meet four times per week in a five week session | 3 absences |
| Courses which meet two evenings per week in a 10 week session | 3 absences |

Students enrolled in special programs or individualized instruction should contact their program director/instructor regarding specific attendance requirements for the program/course. Some of the selective-admission, health-science programs have specific criteria regarding attendance. Students are encouraged to refer to program policies in these matters.

Jury Duty/Military/Official School Function

Scheduled absences are those that occur due to college-related activities or as a result of summons to jury duty or military duty. Classes missed as a result of scheduled absences will not be counted as excessive absences if the instructor is notified and provided documentation prior to the absence(s). Make-up work for scheduled absences will be at the discretion of the instructor.

In all instances, documentation must be provided to the instructor within 24 hours of receipt. Documentation should come from an appropriate party on letterhead or other official stationery with a signature and contact information. Documentation should list the corresponding dates of the leave.

Medical leave

For medical-related absences, documentation must include written notice from the treating medical professional documenting time needed off related to medical reasons and time student may resume classes. The medical reason does not need to be listed on the documentation; the documentation must include only that there is a medical reason, the amount of time the student needs to be absent, and the time the student should be able to return to classes. Students who elect to work at home while on excused leave must meet with their instructors to make arrangements to do so. Working on coursework while on medical leave is not a requirement but can be requested by students. If students request that they be allowed to work at home while on an excused leave, the instructor will make every reasonable effort to ensure that the student is able to do so.

For students who have a medical condition necessitating time off or accommodation:

- 1) They may work at home on assignments if they choose to if on medical leave approved by a medical professional
- 2) Receive appropriate accommodations related to coursework (i.e., excused from labs with potentially harmful chemicals, have a larger desk, etc.)
- 3) Resume their studies where they left off once they return to classes
- 4) Be allowed to make up any missed work related to medical leave
- 5) Receive incompletes on their transcripts until coursework is completed, according to the incomplete grade contract.
- 6) Be given a reasonable time frame in which to complete missed coursework

Academic Honesty Policy

Students enrolled at South Arkansas Community College are expected at all times to uphold standards of integrity. Students are expected to perform honestly and to work in every way possible to eliminate academic dishonesty. Academic dishonesty includes cheating and plagiarism, which are defined as follows:

- Cheating is an attempt to deceive the instructor in his/her effort to evaluate fairly an academic exercise. Cheating includes copying another student's homework, class work, or required project (in whole or in part) and/or presenting another's work as the student's own. Cheating also includes giving, receiving, offering, and/or soliciting information on a quiz, test, or examination.

- Plagiarism is the copying of any published work such as books, magazines, audiovisual programs, electronic media, and films or copying the theme or manuscript of another student. It is plagiarism when one uses direct quotations without proper credit or when one uses the ideas of another without giving proper credit. When three or more consecutive words are borrowed, the borrowing should be recognized by the use of quotation marks and proper parenthetical and bibliographic notations.

If, upon investigation, the instructor determines that the student is guilty of cheating or plagiarism, the following penalties will apply:

- The student will receive a penalty of no less than a zero on the work in question.
- The instructor will submit a written report of the incident to the Vice President for Learning
- The Vice President for Learning will determine whether further disciplinary action will be taken.
- All decisions may be appealed for review through the college's Academic Appeals procedure.

Equal Opportunity-Affirmative Action Statement

South Arkansas Community College does not discriminate on the basis of age, race, color, creed, gender, religion, marital status, veteran's status, national origin, disability, or sexual orientation in making decisions regarding employment, student admission, or other functions, operations, or activities.

Procedures to Accommodate Students with Disabilities:

If you need reasonable accommodations because of a disability, please report this to the Vice President of Student Services with proper documentation. . VPSS Contact: 870.875.7262

The Early Alert System

In an effort to ensure student retention and success, South Arkansas Community College employs an Early Alert System to identify and support at-risk students as soon as possible in a given semester. The intent of Early Alert is to provide this assistance while there is still time to address behaviors or issues that have the potential of preventing students from completing their courses and degree plans. Students referred through the Early Alert System will be required to work on a corrective action plan with their student advising coach and to include attendance accountability and mandatory academic tutoring either in the academic division or in the Testing and Learning Center (TLC).

Once the Student Advising Coach has met with the referred student, and again when the student has met the prescribed corrective actions, the coach will update the Early Alert System so that the instructor is kept informed of the progress in resolving issues.

Behavioral Review Team

At South Arkansas Community College (SouthArk), we are committed to proactive leadership in student wellbeing and campus safety. By focusing on prevention and early intervention with campus situations that involve any person experiencing distress or engaging in harmful or disruptive behaviors, the BRT will serve as the coordinating hub of existing resources to develop intervention and support strategies and offer case management. Students, faculty, staff, and campus guests are encouraged to report any person on campus who is a concern. BRT Contact: 870.875.7262
