

MEMORANDUM of UNDERSTANDING
to
OFFER CONCURRENT ENROLLMENT COURSES
Academic Year 2021-2022

Under the terms of this Memorandum of Understanding (MOU), *South Arkansas Community College (SouthArk)* and *Strong-Huttig School District* agree to allow high school students to enroll in college/university courses offered on the SouthArk Campus and/or Strong-Huttig School Campus.

The South Arkansas Community College (SouthArk) Early College Start (ECS) Program is an opportunity for high school students to enroll in college courses to enhance their high school education and accelerate their postsecondary education. High school students who are tenth graders and above may concurrently enroll for college credit courses by meeting the following criteria:

Authority to offer Concurrent Courses

Arkansas Statute 6-18-223 authorizes Arkansas High School students to enroll in college/university courses to earn credit that will be applicable to a college degree and concurrently to a high school diploma.

The Concurrent Enrollment Policy of the Arkansas Higher Education Coordinating Board (AHECB Policy 5.16) includes guidelines for establishing and maintaining concurrent courses, but not limited to, requirements for faculty teaching concurrent courses, ownership by the College/University for the courses offered at the high school, eligibility of students, and funding of the concurrent program.

Approval

As a program approved by the Arkansas Division of Higher Education (ADHE), Strong-Huttig School District adheres to requirements of the Arkansas Higher Education Coordinating Board (AHECB) to offer concurrent courses.

All Arkansas colleges and universities offering concurrent courses will submit concurrent-related data and information to ADHE.

Oversight of Concurrent Courses

The college/university administration will be responsible for all aspects of the concurrent course, including hiring/designating an Institutional Concurrent Coordinator, and participating in the faculty selection, orientation, and evaluation processes.

Contact Person

The College/University Concurrent Enrollment Coordinator will be the contact for the concurrent enrollment partnership. The high school will provide a Concurrent Liaison/Coordinator to serve as the High School contact for the partnership.

Requirements for Concurrent Instructors – General Education Courses

To ensure that concurrent courses meet the same standard as those offered on the college/university campus, high school faculty must meet the same academic qualifications required by the college/university faculty.

- The college/university Concurrent Coordinator and the college/university Academic Unit must review and approve the credentials of each concurrent instructor. Credentials include:
 - A master's degree that includes 18 graduate hours in the teaching field.
 - Current curriculum vitae/resume
 - Transcripts
 - Syllabi for all concurrent courses previously taught by faculty new to the institution's concurrent program.
 - Other information requested by the college/university.
- According to ADHE policy, an individual under contract with a school district as a teacher will not be considered an adjunct faculty member of the college for payment purposes.
- Faculty teaching concurrent courses are expected to use the college syllabi and follow the policies of both the college and the high school.
- The college will assign a faculty mentor to any high school instructor teaching college courses. The mentor will work with the high school instructor to make sure he or she is using the same assessment methods--departmental final exam, a rubric-graded term paper, a rubric-graded oral presentation, etc.--required in the college's student outcomes assessment plan. The appropriate dean will make sure the assessment data are collected and included in the college's assessment reports.
- If the high school does not have a qualified teacher to teach the college course, the high school will either (1) assist SouthArk in finding a qualified instructor to teach on the high school campus; (2) review the possibility of allowing students to take the course on SouthArk's campus or (3) review the possibility of allowing students to take the course online/streaming video. If this occurs, each course will be reviewed and approved by both parties involved on a case-by-case basis.

Concurrent Courses – General Education

- Freshman and/or sophomore-level courses listed in the course catalog, and approved for concurrent credit by the college/university approval process.
- Courses offered for concurrent credit **will** meet the same standards as courses taught on the college/university campus.
- Concurrent faculty will use the same course syllabi used on the college campus.
- The college administration will approve all courses to be offered in this program according to the state's requirements and will involve all concurrent enrollment instructors in the college's learning assessment program.
- General Education courses offered for concurrent credit must be listed in the Arkansas Course Transfer System (ACTS)

- General Education courses offered for concurrent credit must be listed in the MOU between the high school and college/university.

Course Location/Classroom Arrangements

- Courses offered for concurrent courses will be taught on the college and/or high school campuses.
- College courses will be scheduled using the high school calendar when they are scheduled during the regular high school day on the high school campus. Courses scheduled on the college campus may use the college calendar during which the student must comply with SouthArk's schedule.
- The standard class size must be limited to 25 students on the high school campuses.
- If SouthArk provides (pays) an instructor to teach on the high school campus, a minimum of 15 concurrent students are required for the class to be considered for college credit.
- For the course to be identified as a concurrent course, 51% or more of the students must be enrolled for concurrent credit.
- Students in classes with a mixed population of concurrent and non-concurrent students must meet the same requirements for completion of the course, whether or not the student is simultaneously registered for college credit.
- It is expected that one course will be offered in each classroom used for concurrent courses, and a concurrent-qualified teacher is teaching the course.
- Concurrent courses offered online will be monitored by a concurrent-qualified instructor.
- It is understood that a high school may have a concurrent agreement with more than one college/university; however, there should not be unnecessary duplication of college course offerings.

Note: If there is not agreement among multiple institutions offering college courses at one high school/school district, the college/university seeking clarification on the implementation of the concurrent enrollment policy must contact the ADHE Director in writing and follow the AHECB Policy Off-Campus Instruction Policy-Criteria for Conflict Resolution.

Student Admission Requirements

- The concurrent student must be enrolled in an accredited high school (high graduates are no longer considered concurrent students). The student must complete the Early College Start form, be recommended by the high school principal or designee, and submit this form to SouthArk's Early College Coordinator.
- Students must complete all admission requirements of SouthArk before enrollment as outlined in the current catalog (www.southark.edu).
- The SouthArk Early College Start program is not an open admissions program. Students must achieve the following minimum admissions test scores or equivalent Accuplacer scores; and classification as a Sophomore, Junior or Senior.

	ACT	ACCUPLACER	ACCUPLACER NEXT GEN
English (Writing)	19	83	253
Reading	19	78	253
Math	19	78	256

- Students concurrently enrolled will be classified as non-degree seeking and will not be eligible for financial aid.

- Students enrolled concurrently may not enroll for more than six hours during any given semester (fall, spring, and summer) unless approved by South Arkansas Community College and the participating school district.
- Students enrolled concurrently will be required to comply with the college policies and procedures, including those regarding academic progress.
- Students enrolled concurrently will be responsible for payment of tuition and fees according to established policies. All arrangements for receiving college credit are the responsibility of the student.
- Concurrent students may take summer classes within their designated plan of study at the same tuition rates as outlined in this agreement; however, students are not eligible for the Concurrent Challenge scholarship and are responsible for their summer tuition.
- Students and their parents/guardians have been advised in writing of their rights and responsibilities related to this concurrent enrollment program.

Tuition for Concurrent Courses

Concurrent students will be charged \$41.67 per credit hour (or \$125 per 3-hour course). See Appendix A for the financial model describing the financial responsibilities of each party.

Eligible concurrent students will be submitted for the Concurrent Challenge Scholarship. This scholarship is completely governed by ADHE (ACT 456 of 2019), and any changes in availability, eligibility, or criteria are completely are not the responsibility of South Arkansas Community College or Strong-Huttig School District. Current overview of the scholarship can be found at <https://scholarships.adhe.edu/scholarships-and-programs/high-school/>.

Effective Date

Exceptions to this policy will be reviewed by each party involved and decided upon on an as needed basis. The MOU for the coming year will be signed by both parties by June 30 of each year and will be in effect from July 1 through June 30 of the following year. Both parties reserve the right to cancel this agreement at any time the other fails to comply with any provision of this MOU, effective upon sending an email message to the other signatory and copying it to the college's chief academic officer and the high school's principal.

Appendix D - CERTIFICATE OF GENERAL STUDIES (CGS)

The Certificate of General Studies is designed to recognize the completion of a general education core of 31 credits. This program allows students to earn an award after approximately one year of college education. The program is transferable to four-year colleges in Arkansas and should have good transferability to colleges in other states. Students should always contact the university to which they wish to transfer for more information.

To receive a certificate from SouthArk, a student must complete at least seventeen (17) hours or the last nine (9) hours through South Arkansas Community College.

Advanced Placement Program

South Arkansas Community College participates in the Advanced Placement Program (AP) of the College Entrance Examination Board for entering freshmen. A student who submits the official test transcript verifying earned scores of 3, 4, or 5 may be awarded college credit for an equivalent course listed in the general catalog. This policy includes the opportunity for a high school graduate to enter with sophomore standing if sufficient credit has been earned in the AP program. Credits permitted will be allowed for the corresponding course(s) or sequence of courses at the College, but no grade will be assigned to the approved credit, nor will the hours meet residency requirements.

Students who earn a 3 on an AP exam should be aware that credit may not be awarded for that score should they transfer to another college or university. Students should check with the registrar of any institution they plan to transfer to if they have AP test scores of 3 to determine what level of credit or placement they will receive for this score. Scores of 4 or 5 carry an award of credit at all public institutions of higher education in Arkansas. Twelve hours of credit must be completed at South Arkansas Community College before AP credit is listed on the transcript.

College-Level Examination Program (CLEP)

The College awards credit on the basis of the College-Level Examination Program. *Twelve hours of credit must be completed at South Arkansas Community College before students may petition for CLEP credits to be posted to their transcript.* Students may not test out of Composition II or any basic studies courses. The CLEP exam is given at The Testing Center, (870) 864-7196.

Transfer Assistance

Assistance is available to students who plan to transfer to a four-year institution upon completion of their programs at SouthArk through the Advising & Career Services Department. Students are given information on requirements for admission to four-year colleges and transfer scholarships. Those interested in transfer assistance should contact Kimberly Moore at 870-864-7141 or kmoore@southark.edu.
